DETAILED ACTION

Claim Rejections - 35 USC § 103

1. Claims 1, 3-5, 7-13, 15, 16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nakagawa et al in view of Bennett as discussed in paragraph 1 of the last office action.
2. Applicant's arguments filed 6/26/02 have been fully considered but they are not persuasive.

In response to applicant's argument regarding the continuous operation, the examiner disagrees with applicant's remarks. The film in Bennett is being fed continuously as claimed (col 5 lines 23+). The printing is intermittent meaning it only prints at intermittent positions but the film is moving/running continuously during the printing (col 5 lines 23+ and abstract). The operation is continuous because during printing a portion of the film is accumulated to make the operation continuous. Furthermore, primary reference Nakagawa appears to show a continuous film feeding mechanism during filling and sealing as claimed.

In response to applicant's arguments regarding the packaging conditions and print data, the examiner first notes that primary reference Nakagawa et al show packaging conditions that can be variable. Nakagawa just discloses examples of data that are stored in the memory 21 (col 7 lines 35+). It would have been obvious to include other data memory means, such as, printing data memory means if the user wanted to print on the packaging material for display purposes. Bennett does show

print data memory means and packaging conditions, such as, the length of the packaging bag (Col 9 lines 10+).

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
